### Do Not Accept:

Sims Recycling Solutions is not licensed to receive any hazardous waste or other inappropriate material. Significant penalties can be assessed by regulatory agencies against Sims Recycling Solutions for inappropriate shipments of hazardous waste.

Material **not** to be sent to Sims Recycling Solutions may include, but is not limited to:

Pressurized gasses or liquids, such as aerosol cans  
Hazardous liquids, such as bottles of cleaning chemicals  
Hazardous powders, such as cans of molybdenum powder  
Hazardous semi-liquids, such as tubes of grease  
Charged defibrillators or other items posing extreme shock hazard

Equipment contaminated with or containing:

- Chemicals not integral to the original, new equipment
- Ozone depleting chemicals (such as CFC's)
- Polychlorinated biphenyls (PCB's)
- Biological substances (such as blood, body fluids and other infectious substances)
- Biodegradable material that could become hazardous
- Asbestos (typically in insulation)
- Radioactive substances
